Product Innovation, Development and Quality

Our Brand: Lap.Works™

Having quality products with dependable performance is essential to any clinician and we strive to achieve this across the range, from the simplest to the most complex products. LocaMed assesses every stage of manufacturing to ensure the consistent quality of our products.

Our Brand, Lap.Works™ is a label that safeguards quality. This brand is given to all of our products with the recognition that they have passed our strict quality assurances.

The Lap.Works™ range is continually evolving and developing as we release on average 10 new product lines a year as part of our continual investment.

Feedback from our UK customer base forms a critical part of our product development and we openly work with the clinical staff to foster a continuous improvement culture within LocaMed.
